EVENT DESCRIPTION

SDG 17, Partnerships for the Goals, prompts us to strengthen the means of implementation and revitalize global partnerships for sustainable development.

A cross-cutting theme for SDG 17 is gender-responsiveness, which is of particular concern to the UNECE region where alarms have been raised about a backslide on gender equality.

This event, organized as an interactive learning/training session, draws insights from the expertise of a range of stakeholders to share tools, strategies, and approaches on gender-responsiveness in partnerships for the goals.

EVENT OBJECTIVES

The objectives of this event are to provide a technical briefing on the tools, strategies, and approaches presented and to offer resources on gender-responsiveness in partnerships for the goals.

The session builds on our 2022 UN HLPF SDG Learning Session “Achieving gender equality: measuring progress and advocating for systems change” and serves as a continuation of our collective efforts in the implementation of Agenda 2030.

The expected outcomes of the session include the application of the shared tools, strategies, and approaches as a means to strengthen partnerships for the goals in gender-responsive ways.
